

Swine Flu Connect-ED:

Good evening, this is John Mankowich from the Sachem Office of Health & Physical Education, Health Services and Athletics. We are contacting you this evening to update you on the status of the H1N1 virus within the Sachem School District. Since we last notified you on June 2nd, we have no additional confirmed cases of H1N1 influenza within the district. Our district attendance rates remain consistent compared to attendance rates in the past during this time of year. Although we have had no further confirmed diagnoses, we have seen multiple diagnosis of influenza, not confirmed H1N1, throughout the district. We have been consulting with the Suffolk County Department of Health and continue to follow the guidelines of the Center for Disease Control.

Please continue to check the Sachem website for updates from Suffolk County Department of Health and the Center for Disease Control.

Thank you.
