

April Is Autism Awareness Month

The statistics are astounding of how many children are affected each year. While there is no known single cause of autism we can be a part of increasing awareness and supporting an organization within our community. Spectrum of Dreams Foundation is a non-profit public foundation. This organization has helped many of our special needs children within the district. Make a donation of **\$12** to show your support and receive a 22oz. BPA “Sachem Supports Autism Awareness” water bottle.

Please send cash or check to **Sagamore Middle School Attention Lola Hughes. All bottles will be delivered within 5 school days from date received.**

All proceeds will be donated to
