June 2018

Dear Waverly Families:

In our continuing effort to ensure the safest and most efficient drop-off practices for our students, the following procedures will continue for the 2018-2019 school year.

- All student drop-offs will take place at the corner of the walkway by the playground. We will no longer have students dropped off in the center parking lot. Parents should enter the bottom lot and circle around the lower lot and pass the mini buses in order to arrive at the designated drop-off location. There will be multiple staff members along the walkway to help direct both parents and children as they arrive and enter the school building.

- For the safety of our students, no one should be dropped off before 9:05 a.m. (excluding early morning activities)

- We would ask that parents/guardians who will be dropping off students to be mindful and patient as we drop off one car at a time. This will allow for an organized and safe procedure.

I am mindful that this process will be evolving and will take time to perfect. However, there is nothing more valuable than our children and their safety, and I do believe that these updated procedures will offer the best means to that end.

Your patience and understanding are appreciated as we all work together to ensure the safe arrival of all the students at Waverly Avenue Elementary School.

This procedure will not apply to drop-offs for early morning activities.

Sincerely,

John Ruggero
Principal
Waverly Avenue Elementary School
