Policy 0115

STUDENT HARASSMENT AND BULLYING PREVENTION AND INTERVENTION

The Board of Education is committed to providing an educational and working environment that promotes respect, dignity and equality. The Board recognizes that discrimination, such as harassment, hazing and bullying, are detrimental to student learning and achievement. These behaviors interfere with the mission of the district to educate its students and disrupt the operation of the schools. Such behavior affects not only the students who are its targets but also those individuals who participate and witness such acts.

To this end, the Board condemns and strictly prohibits all forms of discrimination, such as harassment, hazing and bullying on school grounds, school buses and at all school-sponsored activities, programs and events.

Discrimination, harassment, hazing or bullying that takes place at locations outside of school grounds such as cyberbullying, which creates or can be reasonably expected to create a material and substantial interference with the requirements of appropriate discipline in the operation of the school or impinge on the rights of other students are prohibited, and may be subject to disciplinary consequences.

Definitions

Bullying

Bullying, under the amended Dignity for All Students Act, has the same meaning as harassment.

Cyberbullying

Cyberbullying is defined as harassment (see below) through any form of electronic communication including, but not limited to, instant messaging, email, websites, chat rooms and text messaging.

Discrimination

Discrimination is the act of denying rights, benefits, justice, equitable treatment or access to facilities available to all others, to an individual or group of people because of the group, class or category to which that person belongs (as enumerated in the Definitions section, under Harassment, below). 2 0115

Hazing

Hazing is an induction, initiation or membership process involving harassment which produces public humiliation, physical or emotional discomfort, bodily injury or public ridicule or creates a situation where public humiliation, physical or emotional discomfort, bodily injury or public ridicule is likely to occur.

Harassment

Harassment has been defined in various ways in federal and state law and regulation. The Board recognizes that these definitions are important standards, but the Board's goal is to prevent misbehavior from escalating in order to promote a positive school environment and to limit liability. The Dignity for All Students Act (§§10-18 of Education Law) defines harassment as the creation of a hostile environment by conduct or by threats, intimidation or abuse, including cyberbullying, that (a) has or would have the effect of unreasonably and substantially interfering with a student's educational performance, opportunities or benefits, or mental, emotional or physical well-being; (b) reasonably causes or would reasonably be expected to cause a student to fear for his or her physical safety; (c) reasonably causes or would reasonably be expected to cause physical injury or emotional harm to a student; or (d) occurs off school property and creates or would foreseeably create a risk of substantial disruption within the school environment, where it is foreseeable that the conduct, threats, intimidation or abuse might reach school property. The harassing behavior may be based on any characteristic, including but not limited to a person's actual or perceived:

- race,
- color,
- weight,
- national origin,
- ethnic group,
- religion,
- religious practice,
- disability,
- sex,
- sexual orientation, or
- gender (including gender identity and expression).

For the purpose of this definition the term "threats, intimidation or abuse" shall include verbal and non-verbal actions.

In some instances, bullying or harassment may constitute a violation of an individual's civil rights. The district is mindful of its responsibilities under the law and in accordance with district policy regarding civil rights protections.

In order to streamline the wording of this policy and regulation the term bullying will be used throughout to encompass harassment, intimidation, cyberbullying and hazing behaviors.

Prevention

The school setting provides an opportunity to teach children, and emphasize among staff, that cooperation with and respect for others is a key district value. A program geared to prevention is designed to not only decrease incidents of bullying but to help students build more supportive relationships with one another by integrating the bullying prevention program into classroom instruction. Staff members and students will be sensitized, through district-wide professional

development and instruction, to the warning signs of bullying, as well as to their responsibility to become actively involved in the prevention of bullying before overt acts occur.

The Superintendent of Schools or his/her designee shall develop and implement a school strategy to prevent harassment, bullying and discrimination as well as procedures and guidelines, as needed, to fulfill the purpose of this policy in the School District, including intervention and non-discriminatory instructional and counseling methods and guidelines relating to the development of measured, balanced and age-appropriate responses to instances of harassment, bullying or discrimination by students, with remedies and procedures following a progressive model that make appropriate use of intervention, discipline and education, vary in method according to the nature of the behavior, the developmental age of the student and the student's history of problem behaviors, and are consistent with the School District's Code of Conduct.

Curricular material that raises awareness and sensitivity to discrimination or harassment and civility in the relationships of people of different races, weights, national origins, ethnic groups, religions, religious practices, mental or physical abilities, sexual orientations, sexes or gender expression or identities will be included in the instructional program K-12.

The School District will include in the course of instruction in grades kindergarten through twelve a component on civility, citizenship and character education. Such component shall instruct students on the principles of honesty, tolerance, personal responsibility, respect for others, with an emphasis on discouraging acts of harassment, bullying and discrimination, observance of laws and rules, courtesy, dignity and other traits which will enhance the quality of their experiences in, and contributions to, the community. The component shall support the development of a school environment free of harassment, bullying and discrimination and shall also include instruction on the safe, responsible use of the internet and electronic communications. For purposes of this policy, "tolerance," "respect for others" and "dignity" shall include awareness and sensitivity to bullying, discrimination or harassment and civility in the relations of people of different races, colors, weights, national origins, ethnic groups, religions, religious practices, mental or physical abilities, sexual orientations, genders and sexes.

In order to implement this program the Board will designate at its annual organizational meeting a Dignity Act Coordinator (DAC) for each school in the district. One of the DAC's will be designated as the district-wide coordinator whose responsibilities are described in the accompanying regulation. The role of each DAC is to oversee and enforce this policy in the school to which they are assigned and to receive reports of harassment, bullying and discrimination.

In addition, the Superintendent will establish a district-wide Task Force on Bullying Prevention, as well as Bullying Prevention Coordinating Committees in each school that will be overseen by the district-wide DAC. Committees will include representation from staff, administration, students and parents. The district-wide task force and the school-level committee will assist the administration in developing and implementing specific prevention initiatives, including early identification of bullying and other strategies. In addition, the program will include reporting,

investigating, remedying and tracking allegations of bullying. The accompanying regulation provides more detail on the specific programs and strategies implemented by the district.

Intervention

Intervention by adults and bystanders is an important step in preventing escalation and resolving issues at the earliest stages. Intervention will emphasize education and skill-building.

Successful intervention may involve remediation. Remedial responses to bullying and harassment include measures designed to correct the problem behavior, prevent another occurrence of the behavior and protect the target. Remediation may be targeted to the individual(s) involved in the bullying behavior or environmental approaches which are targeted to the school or district as a whole.

In addition, intervention will focus upon the safety of the target. Staff is expected, when aware of bullying, to either refer the student to designated resources for assistance, or to intervene in accordance with this policy and regulation.

Provisions for students who do not feel safe at school

The Board acknowledges that, notwithstanding actions taken by district staff, intervention may require a specific coordinated approach if the child does not feel safe at school. Students who do not feel safe at school are limited in their capacity to learn and reach their academic potential. Staff, when aware of bullying, should determine if accommodations are needed in order to help ensure the safety of the student and bring this to the attention of the building principal. The building principal, other appropriate staff, the student and the student's parent will work together to define and implement any needed accommodations.

The district recognizes that there is a need to balance accommodations which enhance student safety against the potential to further stigmatize the targeted student. Therefore, each case will be handled individually. The student, parent/guardian, and school administration will collaborate to establish safety provisions that best meet the needs of the targeted student. Follow-up discussion and/or meetings will be scheduled, as needed, to ensure that safety concerns have been adequately addressed and to determine when and if accommodations need to be changed or discontinued.

Incident Reporting and Investigation

Although it can be difficult to step forward, the district can't effectively address bullying if incidents are not reported. Students who have been bullied, parents whose children have been bullied or other students who observe bullying behavior are encouraged and expected to make a verbal and/or written complaint to any school personnel in accordance with the training and guidelines provided. Staff who observe or learn of incident(s) of bullying are required, in accordance with State law, to make an oral report to the Building Principal or DAC within one school day and to fill out the district reporting form within two school days. If a staff person is unsure of the reporting procedure, he/she is expected to inquire about how to proceed by speaking with his/her supervisor. A district employee may be deemed to have permitted

unlawful discrimination or harassment if he/she fails to report an observed incident, whether or not the target complains.

At all times, complaints will be documented, tracked and handled in accordance with the regulations and procedures accompanying this policy, or, if applicable, [0100, Equal Opportunity and Nondiscrimination, or 0110, Sexual Harassment] and the district's Code of Conduct. The Building Principal will prepare a report for the Superintendent based on complaints filed.

An equitable and thorough investigation will be carried out by DAC or Building Principal in accordance with the accompanying regulation. In addition, the results of the investigation shall be reported back to both the target and the accused as specified in the accompanying regulation. If either of the parties disagrees with the results of the investigation, they can appeal the findings in accordance with the regulations that accompany this policy. Verified bullying incidents that meet the criteria established by the state will be included in the statewide reporting system when applicable, in accordance with law and regulation.

The Board will receive the annual VADIR report, as well as any other state-required report relevant to bullying and/or school climate, for each building and for the district as whole. Based on the review of the data, the Board may consider further action, including but not limited to modification of this policy and additional training.

Disciplinary Consequences/Remediation

While the focus of this policy is on prevention, bullying acts may still occur. In these cases, offenders will be given the clear message that their actions are wrong and the behavior must improve. Student offenders will receive in school guidance in making positive choices in their relationships with others. If appropriate, disciplinary action will be taken by the administration in accordance with the district's Code of Conduct, as applicable. If the behavior rises to the level of criminal activity, law enforcement will be contacted.

Consequences for a student who commits an act of bullying shall be unique to the individual incident and will vary in method and severity according to the nature of the behavior, the developmental age of the student, and the student's history of problem behaviors, and must be consistent with the district's Code of Conduct.

Non-Retaliation

All complainants and those who participate in the investigation of a complaint in conformity with state law and district policies, who have acted reasonably and in good faith, have the right to be free from retaliation of any kind.

Training

The Board recognizes that in order to implement an effective bullying prevention and intervention program, professional development is needed. The Superintendent, the district wide DAC and the District Professional Development Team will incorporate training to support this program in new teacher orientation and the annual professional development plan, as needed.

Training opportunities will be provided for all staff, including but not limited to bus drivers, cafeteria and hall monitors and all staff who have contact with students. The DACs will be trained in accordance with state requirements and will continue their professional development so as to successfully support this policy and program.

In accordance with state law, the Superintendent of Schools or his/her designee will designate at least one (1) staff member at every school as a Dignity Act Coordinator who is approved by the Board and who will be instructed in the provisions of the Dignity for All Students Act; thoroughly trained to handle human relations in the areas of race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender and sex; and provided training: (1) which addresses the social patterns of harassment, bullying and discrimination, including but not limited to those acts based on a person's actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender, and sex; (2) in the identification and mitigation of harassment, bullying and discrimination; and (3) in strategies for effectively addressing problems of exclusion, bias, and aggression in educational settings. Each Coordinator shall be employed by the School District and be licensed and/or certified by the Commissioner as a classroom teacher, school counselor, school psychologist, school nurse, school social worker, school administrator or supervisor, or Superintendent of Schools. The name and contact information of the Dignity Act Coordinator shall be disseminated in accordance with state law and the Commissioner's Regulations.

Dissemination, Monitoring, Review, and Reporting

This policy, or a plain language summary, shall be published in student registration materials, student, parent and employee handbooks, and posted on the district's website. A bullying complaint form will be available on the district's website. The district will ensure that the process of reporting bullying is clearly explained.

The School District shall report material incidents of discrimination, bullying and harassment of students to the Department of Education as mandated by the Regulations of the Commissioner of Education, but in no case less than on an annual basis.

Each year, as part of the annual review of the Code of Conduct, this policy will be reviewed to assess its effectiveness and compliance with state and federal law. If changes are needed, revisions will be recommended to the Board for its consideration.

The Board will receive the annual VADIR report, for each building and for the district as whole, with particular attention to the trends in the incidence of bullying. In addition, the Board will receive on an annual basis a more detailed report of the number of bullying incidents that occur, disaggregated by school, student demographic information and type of incident. Based on the review of the data, the Board may consider further action, including but not limited to modification of this policy and additional training.

The district will ensure that reporting of information to the public will be in a manner that complies with student privacy rights under the Family Educational Rights and Privacy Act (FERPA).

ANNUAL PROFESSIONAL PERFORMANCE REVIEW POLICY

EVALUATION OF PROFESSIONAL STAFF

Teacher Evaluation Program

The primary purpose of the evaluation of teachers shall be to ensure the highest quality of education being offered to students. This requires the development of a process whereby all staff members may increase the effectiveness of their services to the educational program. A broader purpose of the evaluation process is to assess teacher competence, to make decisions regarding the assignment and employment of staff, and to verify that district educational goals are being implemented and achieved.

I. Program Assumption

The Teacher Evaluation Program is based upon the following assumptions:

- A. Teachers and other instructional personnel have a responsibility to demonstrate interest in their own development by acquiring new knowledge and skill.
- B. Teachers and other instructional personnel have a commitment to work effectively with their colleagues and welcome regular feedback about the quality of their work.
- C. Teachers understand their professional expectations and responsibilities.
- D. A proper climate exists to encourage the self-development of each teacher.
- E. Professional goals of teachers shall be compatible with organizational goals.

II. Responsibility for Supervision and Evaluation

All staff members will be evaluated on an annual basis. It is the responsibility of the building principal to inform each staff member of this policy and to review with staff the procedures for evaluation.

The principal holds the primary responsibility for teacher supervision and evaluation. Principals are assisted in this function by supervisors, directors, Assistant Principals and additional administrative/supervisory personnel as designated by the Superintendent of Schools. Annual evaluation reports are the responsibility of the principal(s) with input from other administrative/supervisory personnel. Classroom observation reports are the responsibility of the administrator or supervisor observing the lesson.

III. Staff Members Possessing a Transitional or Initial Certificate

For individuals possessing a transitional or initial certificate, an evaluation of the "teacher's portfolio" (components of the teaching/learning process) will be required. The portfolio may

include any of the following: formal and informal observations, a sample of lesson plans, a sample of student work and student assessment instruments, and the teacher's reflection of his/her classroom performance in the post observation conference.

IV. Teacher Improvement Plans

Individuals whose overall performance is evaluated as unsatisfactory by a school administrator will be required to undertake a teacher improvement plan established by the district in consultation with the teacher.

V. Evaluation of Student Services Staff

The performance review criteria and evaluation reports set forth in this policy and regulation may be altered by the district in order to meet the needs of student services professionals or other professional staff.

VI. All principals and supervisory personnel engaged in performance reviews of teachers and student services staff shall participate in training on performance evaluation pursuant to a program established by the Superintendent of Schools.

Policy 0335

EVALUATION OF ADMINISTRATIVE STAFF

The district's evaluation policy shall be the basis for the evaluation of Sachem's supervisors and administrators.

Each supervisor and administrator shall be evaluated annually by his/her immediate supervisor or his/her designee.

The evaluation will consist of the following:

1. A narrative written by the supervisor describing to what degree he/she carries out his/her job description effectively including strengths and weaknesses.
2. An assessment of necessary behaviors and skills for effective performance.
3. A narrative describing to what degree previously set goals have been met.
4. A professional improvement plan mutually agreed upon by the supervisor and the administrator or supervisor being evaluated.
5. The development of future long- and short-term goals that will carry out the mission of the school.

EQUAL EDUCATIONAL OPPORTUNITIES

Every individual should be encouraged to develop and achieve to his or her potential. The district therefore shall provide every student with equal educational opportunities regardless of race, color, creed, sex, national origin, religion, age, economic status, marital status, or disability.

An educational environment will be fostered that provides equal educational opportunity for all students. Educational programs and services will be designed to meet the needs of all students and shall not discriminate based upon any of the above-mentioned factors. No student will be excluded on such basis from participating in or having access to any course offerings, student athletics, counseling services, employment assistance, extracurricular activities or other school resources.

SEXUAL HARASSMENT OF STUDENTS

Sexual harassment in an educational environment is illegal. Therefore, the Sachem Central School District's Board of Education condemns all sexual harassment and further forbids all students from engaging in such activity. The Board also strongly opposes and forbids any retaliatory behavior against complainants and witnesses. The Board is committed to maintaining a learning environment that is free from all forms of sexual harassment.

The Equal Employment Opportunity Commission's (EEOC) definition of sexual harassment will be applied by the Board to the educational environment as follows:

Sexual harassment consists of unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:

1. submission to such conduct is made either explicitly or implicitly a term or condition of a student's right to a fair and equal educational opportunity;
2. submission to or rejection of such conduct by a student is used as the basis for educational decisions affecting such student; or
3. such conduct has the purpose or effect of unreasonably interfering with a student's performance or creating an intimidating, hostile, or offensive learning environment.

Conduct is deemed to be sexual harassment when it consists of unwelcome conduct of a sexual nature. Sexual harassment is not dependent upon the alleged harasser's intention. The Board recognizes that sexual harassment can originate from a person of either sex against a person of the opposite or same sex, and from peers as well as district employees or visitors.

Students who believe that they have been subjected to sexual harassment should report the conduct immediately to the designated compliance office to handle such complaints, so that an investigation can begin at once. In the absence of a victim's complaint, the Board, upon learning of or having a reasonable basis to suspect the occurrence of sexual harassment, will cause an investigation to be promptly commenced by appropriate individuals.

The Superintendent of Schools shall notify all employees, students, and their parents of the name, office address and telephone number of the district's compliance officer.

If during the building administrator's informal attempt to resolve the complaint, the alleged harasser admits the allegations but refuses to give assurance that he/she will refrain from the unwelcome behavior, the administrator is to file a report with the next appropriate level of administration. The report is to indicate the nature of the complaint, a description of what occurred when the building administrator informed the alleged harasser of the allegations against him/her, the harasser's response to the allegations, and a recommendation that stronger corrective measures be taken. This report may be accompanied by a formal complaint.

Should the alleged harasser deny the allegation, the supervisor is to inform the complainant of the denial and state that a formal written complaint will be helpful for further formal investigation. The building administrator will file a report indicating what has transpired to date with the Assistant Superintendent for Instruction or the Superintendent. If the complainant submits a formal complaint, a copy of it should accompany the building administrator's report with a recommendation for further action.

Formal Complaints

Formal complaints may be submitted either to initially report any incidence of sexual harassment, or as a follow-up to an unsatisfactory resolution of an informal attempt to resolve a complaint. In the latter case, the formal written complaint is to be submitted to the building administrator originally consulted, who will then forward it to the next appropriate level of administration, e.g., the Assistant Superintendent for Instruction or the Superintendent, for appropriate action.

The formal written complaint will consist of any appropriate forms and a copy of any applicable supervisor reports. The appropriate forms solicit the specifics of the complaint, e.g., date and place of incident, description of sexual misconduct, statements of any witnesses, and any previous action taken to resolve the matter.

Remedial Action

If the investigation reveals that sexual harassment has occurred, appropriate sanctions will be imposed in a manner consistent with any applicable law. Depending on the gravity of the misconduct, these may range from a verbal warning up to and including a suspension from school or termination of employment.

Anyone subjecting complainants or witnesses to any form of retaliation will also be subject to disciplinary action in the manner prescribed by law and consistent with any policy of school conduct and discipline.

5020.1

If the investigation is inconclusive or reveals that no sexual harassment has occurred, or if the complainant is not satisfied with the remedial action taken after a finding of sexual harassment, the complainant may appeal to the next appropriate level of administration, e.g., the Assistant Superintendent for Instruction or the Superintendent. The appeal must include a copy of the original complaint, if any, all relevant reports, the specific action being appealed and an explanation of why the complainant is appealing.

The building administrator should refer the allegation of sexual harassment directly to the Superintendent when the circumstances, severity of the allegation or persons involved warrant a preliminary assessment by the Superintendent. This referral should be submitted immediately in writing from the building administrator learning of the charge. No investigation or interviewing of witnesses should be undertaken prior to the delivery of this report to the Superintendent. The Superintendent shall determine whether an investigation is in order and who shall conduct the investigation. The Superintendent shall also determine whether the allegations warrant the immediate referral of the matter to any applicable governmental agency, including, but not limited to, the police, prior to any implementation of this procedure.

RACIAL HARASSMENT OF STUDENTS

The Board of Education is committed to safeguarding the rights of all students within the school district to learn in an environment that is free from racial* discrimination, including racial harassment. The Board recognizes that racial harassment of students can originate from a person of the same or different race of the victim including peers, employees, board members or any individual who foreseeable might come in contact with students on school grounds or at school-sponsored activities.

Racial harassment of students consists of different treatment on the basis of race and is recognized in two different forms:

1. when the district's employees or agents, acting within the scope of official duties, treat a student differently than other students solely on the basis of race; or
2. when the education environment is not kept free from discrimination because the harassing conduct is so severe, pervasive or persistent that it interferes with or limits the ability of a student to participate in or benefit from the services, activities or privileges provided.

The Board also prohibits any retaliatory behavior against complainants or any witnesses.

Any student who believes that he/she has been subject to racial harassment should report the alleged misconduct immediately, pursuant to 5020.2-R, so that corrective action, up to and including discharge of an employee or suspension of a student, may be taken at once. The complainant shall not be discouraged from reporting an incident of alleged racial harassment. In the absence of a victim's complaint, the Board, upon learning of, or having reason to suspect the occurrence of any racial harassment, will ensure that an investigation is promptly commenced by appropriate individuals.

The Superintendent of Schools is directed to develop and implement specific procedures on reporting, investigating and remedying allegations of racial harassment. Such procedures are to be consistent with any applicable provisions contained in the district's policy manual, collective bargaining agreements, the tenure laws as well as other federal and state laws on racial harassment. Training programs shall be established for students and employees to raise awareness of the issues surrounding racial harassment and to implement preventative measures to help reduce incidents of racial harassment.

A copy of this policy and its accompanying regulation is to be distributed to all personnel and students and posted in appropriate places.

**For the sake of simplicity and clarity, the term "race" shall be used throughout this policy to refer to all forms of discrimination prohibited by Title VII - - that is, race, color, and national origin.*

STUDENTS WITH HIV-RELATED ILLNESS

The Board of Education recognizes and shares the public concern over the health issues surrounding Acquired Immune Deficiency Syndrome (AIDS) and Human Immunodeficiency Virus Infection (HIV). The Board also recognizes, based upon the current state of medical knowledge, that the virus associated with AIDS is not easily transmitted and there is no evidence that AIDS or the HIV virus can be transmitted by casual social in the open school setting.

The Board acknowledges the rights of those students diagnosed as having AIDS or HIV infection to continue their education as well as the rights of all students in the school district to learn and participate in school activities without being subjected to significant risks to their health. The Board also takes notice that under current law and regulations the disclosure of confidential AIDS and/or HIV-related information must be strictly limited.

Accordingly, it is the policy of the Board that no student shall be denied the opportunity to attend school, continue his/her education or take part in school-related activities solely on the basis of being diagnosed as having AIDS or HIV infection.

In accordance with current state law and regulations, it is also the policy of the Board to prevent any student from being subjected to adverse or discriminatory treatment or stigma because he or she has been diagnosed as having AIDS or being HIV-infected.

The Superintendent of Schools is hereby directed to develop administrative regulations in regard to the education of students diagnosed as having AIDS or being HIV-infected.

The Superintendent also shall establish and implement, and all school personnel shall comply with, guidelines and routine sanitary hygiene procedures for dealing with all spills of blood and other body fluids in or on school premises and grounds. The Superintendent should consult public health officials and/or the school physician, as appropriate, for the most current methods and information pertaining to such procedures.

The Board of Education is committed to providing equal access to all categories of employment in this district, regardless of race, color, national origin, creed or religion, marital status, sex, age, or disability.

The Board believes it to be in the interest of both students and the public to have a staff which is highly qualified and effective in performing the duties assigned to them, and which contains a healthy diversity of personal backgrounds.

The Superintendent of Schools shall ensure that applicants for open positions in either the administrative, instructional or support staff of the district, are actively sought from members of any minority group which is underrepresented in that staff.

Candidates for open positions, as well as for promotion and transfer, will be given full consideration and evaluated on the basis of education, experience and ability, to determine fitness to perform the duties of the position. The rights, responsibilities and duties which accrue to any position will accrue equally to any employee in that position.

SEXUAL HARASSMENT OF EMPLOYEES

Sexual harassment of employees is a form of discrimination and is a violation of Title VII of the Civil Rights Act of 1964 in that it constitutes differential treatment on the basis of sex. The Board of Education is committed to safeguarding the right of all employees within the school district to a work environment that is free from all forms of sexual harassment. The Board reaffirms its commitment to enforce the requirements of the law with respect to sexual harassment.

Therefore, the Board condemns all unwelcome behavior of a sexual nature which is either designed to directly extort sexual favors from an employee as a term or condition of employment, or which has the purpose or effect of creating an intimidating, hostile, or offensive working environment. The Board also strongly opposes any retaliatory behavior against complainants or any witnesses.

Sexual harassment does not refer to occasional compliments or behavior of a socially acceptable nature. Sexual harassment, in general, is behavior or conduct that has sexual overtones, that is unwelcome, that is personally offensive to the recipient, and fails to respect the rights of others. Sexual harassment does not only depend upon the intention of the offender, but also upon how the victim perceives the behavior or is affected by it. The Board recognizes that sexual harassment can originate from a person of either sex against a person of the opposite or same sex, and from peers as well as supervisors. Sexual harassment may take several forms. Forms of harassment may include, but are not limited to:

1. verbal: sexual innuendos, suggestive comments, jokes of a sexual nature, sexual propositions, threats, sexual favors, questions about a person's sexual practices, sexually explicit jokes, lewd comments or sexual insults;
2. non-verbal: sexually suggestive objects or pictures, graphic commentaries, suggestive or insulting sounds, leering, whistling, obscene gestures or crude cartoons; or
3. physical: unwanted physical contact including, but not limited to, touching, pinching, brushing against another's body, coerced sexual intercourse, assault, cornering, kissing or fondling.

Any employee who believes that he or she has been subjected to sexual harassment should report the alleged misconduct immediately pursuant to Regulation 9110.2-R, so that appropriate corrective action, up to and including discharge of the offender, may be taken at once. In the absence of a victim's complaint, the Board, upon learning of, or having reason to suspect, the occurrence of any sexual misconduct, will ensure that an investigation is promptly commenced by appropriate individuals.

Given the nature of this type of discrimination and the serious ramifications that may result from a complaint, the Board recognizes that false accusations of sexual harassment may have serious effects on innocent people. Any such false accusation will be dealt with severely.

The Superintendent is directed to develop and implement specific procedures on reporting, investigating and remedying allegations of sexual harassment. Such procedures are to be consistent with any applicable provisions contained in the district's collective bargaining agreements and the tenure laws.

A copy of this policy and its accompanying regulation are to be distributed to all supervisory and non-supervisory personnel and posted in appropriate places.
