SACHEM CSD

POLICY FOR 1ST READING

NOVEMBER 15, 2017

-DRAFT NEW POLICY-

SACHEM CENTRAL SCHOOL DISTRICT

FUND BALANCE AND RESERVE FUNDS

POLICY 6020

The Governmental Accounting Standards Board (GASB) has issued Statement No. 54, *Fund Balance reporting and Governmental Fund Type Definitions* (GASB 54). The objective of this Statement 54 is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied.

Fund Balance Classifications (pursuant to GASB Statement 54)

Fund balance amounts will be reported by the School District according to the following classifications:

Nonspendable – consists of assets that are inherently nonspendable in the current period either because of their form or because they must be maintained intact, including prepaid items, inventories, long-term portions of loans receivable, financial assets held for resale, and principal of endowments.

Restricted – consists of amounts that are subject to externally enforceable legal purpose restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments; or through constitutional provisions or enabling legislation. Because the State regulates the establishment, funding and use of School District reserves, generally, reserves will be classified as restricted fund balance.

Committed – consists of amounts that are subject to a purpose constraint imposed by a formal action of the government’s highest level of decision-making authority before the end of the fiscal year, and that require the same level of formal action to remove the constraint. The New York State Office of the State Comptroller at the present time believes that New York State school districts will not have any committed fund balance.

Assigned – consists of amounts that are subject to a purpose constraint that represents an intended use established by the Board of Education or by their designated official. The purpose of the assignment must be narrower than the purpose of the general fund, and in funds other than the general fund, assigned fund balance represents the residual amount of fund balance. Assigned Fund Balance generally includes encumbrances and appropriated fund balance.

Unassigned – represents the residual classification for the government’s general fund, and could report a surplus or deficit. In funds other than the general fund, the unassigned classification should be used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

General Policy

Fund balance measures the net financial resources available to finance expenditures within current or future periods. The School District’s Unassigned General Fund Balance will be maintained to provide the School District with financial stability and a margin of safety to fund unanticipated

-DRAFT NEW POLICY-

SACHEM CENTRAL SCHOOL DISTRICT

FUND BALANCE AND RESERVE FUNDS

POLICY 6020

contingent expenditures that may occur unexpectedly during the fiscal year. The Unassigned General Fund Balance used for these purposes may only be appropriated by resolution of the Board of Education unless voter approval is required.

Any portion of Fund Balance may be applied or transferred for a specific purpose either by voter approval if required by law or by formal action of the Board of Education if voter approval is not required. Amendments or modification to the applied or transferred fund balance must also be approved by formal action of the Board of Education.

The Board of Education shall delegate the authority to assign fund balance, for encumbrance purposes, to the person(s) to whom it has delegated the authority to sign purchase orders.

In circumstances where an expenditure is incurred for a purpose for which amounts are available in multiple fund balance classifications (e.g., expenditures related to reserves) the Board of Education will assess the current financial condition of the School District and then determine the order of application of expenditures to which fund balance classification will be charged.

Reserve funds (essentially a legally authorized savings account designated for a specific purpose) are an important component in the School District's financial planning for future projects, acquisitions and other lawful purposes. To this end, the School District may establish and maintain reserve funds in accordance with New York State Laws, Commissioner's Regulations and the rules and/or opinions issued by the Office of the New York State Comptroller, as applicable. Any and all School District reserve funds shall be established and maintained to promote the goals of creating an open, transparent and accountable use of public funds. Periodic Review and Annual Report

The Board of Education will periodically review all reserve funds. The School District will also prepare and submit an annual report of all reserve funds to the Board of Education. The annual report shall include the following information for each reserve fund:

- a) The type and description of the reserve fund;
- b) The date the reserve fund was established and the amount of each sum paid into the fund;
- c) The interest earned by the reserve fund;

The Superintendent of Schools shall develop any necessary and/or appropriate regulations to implement the terms of the Board of Education's policy.

In general, the School District shall adhere to the following principles with respect to the creation and funding of any or all reserve funds for the School District:

- 1) Consult with legal counsel and other financial experts as necessary for guidance on the authority to establish the reserve fund;
- 2) Identify the financial need or purpose to be served by the prospective reserve fund, including an assessment of whether the reserve fund will complement the long-term financial or capital plans of the School District;

It is the policy of the School District to diversify its deposits and investments by financial institutions, by investment instrument, and by maturity scheduling.

The objectives of the School District's investment program are to safeguard the School District's funds and to minimize risk, so that investments mature when cash is required to finance operations, and so that a competitive rate of return is achieved.

CHARGING SCHOOL MEALS

Policy 8505

The Board of Education recognizes that on occasion, students may forget to bring meal money to school. To ensure that students do not go hungry, but also to promote responsible student behavior and minimize the fiscal burden to the School District, the Board of Education will allow students who may forget meal money to “charge” the cost of meals to be paid back at a later date subject to the terms in this policy.

1. allow only regular meals, defined as items on the menu, excluding extras and snacks, to be charged;
2. limit the number of charges to three (3) meals or a total of \$10.00 outstanding at any given time;
3. when a student exceeds the charge limit, provide a milk and grain component at breakfast, and provide a sandwich, fruit and milk at lunch;
4. notify parents on a timely basis of outstanding charges;
5. use a computer-generated point of sale system, which identifies and records all meals as well as collects repayments;
6. snacks or a la carte items may be purchased only if there is enough money in the student’s pre-paid account to cover the full amount of the charge; and
7. students will not be permitted to purchase snacks or a la carte item, even with cash, if they have a negative account balance.

Charged meals must be counted and claimed for reimbursement on the day that the student charged (received) the meal, not the day the charge is paid back. If the School District suspects that a student may be abusing this policy, written notice will be provided to the parent that if he/she continues to abuse this policy, the privilege of charging meals will be refused. In addition, applications are available at the School District’s Administrative Offices.
