

# Classroom Candy Corner

**You may open your bags. Do not eat them yet!**

Name: \_\_\_\_\_ Date: \_\_\_\_\_ Group#: \_\_\_\_\_

1. Copy your estimates from page 1 into the table below.
2. Separate the M&M® 's in your bag.
3. Count how many M&M® 's there are of each color.
4. Write the number of each color in **YOUR** bag in the **YOURS** column below.
5. Add up all of the different colors in your bag and put the sum in the total row.
6. Wait for your group to finish counting.
7. Add up the number of **red** for your **GROUP** and write the answer in the **GROUP TOTAL** for **red**.
8. Do the same for the other colors.
9. Add up the **GROUP TOTAL** column to find the totals for your group. Write the sum in the Total Row.

Color	Estimate	Yours	Group total	Class Total
Red				
Blue				
Green				
Orange				
Yellow				
Brown				
Total				

How do your estimates compare to your actual number of M&M® 's? Did your results surprise you?

---

---

---

Why do you think that everyone did not have the same number of M&M®'s in their bag?

---

---

---

**You may eat your M&M® 's now!!**
