

## Interactive SMART Board Workshop

Name: \_\_\_\_\_

Session: \_\_\_\_\_

Please complete and check the following:

1. Connect the SMART Board:

- Projector
- Laptop
- SMART board

2. Orient the SMART Board:

- Press the four targets to properly align the Board

3. Cycle between SMART Board (only), laptop (only) and both.

- Fn F8 key
- Any comments : \_\_\_\_\_

4. Open Internet Explorer. Use the onscreen keyboard (underneath the eraser) to type: [www.smarttech.com](http://www.smarttech.com).

5. Leaving smarttech.com up, take a few minutes to play with the pens and eraser.

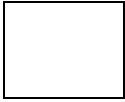

- Can more than one person use a pen at a time? \_\_\_\_\_

6. Use the floating tool bar. Take several minutes to explore some of its features.

7. If it is not already running (ie from using the camera icon), open up the Notebook software.

- Open up the Gallery
- Select Essentials for Educators
- Search a topic that interests you.
- Bring in a gallery element
- Resize the object
- Add a new page (+)

## SMART Board 101

8. Go back to smarttech.com:

- Select Education > Education Resources > Notebook software activities > United States > Subject & Grade level. Search for a topic of interest to you.
- This is a nice database of lessons that teachers have submitted. This way you don't have to reinvent the wheel. ☺

Congratulations, you have completed SMART Board 101.

For extra credit you can...

- Explore the SMART Board Gallery (in the Notebook software)
- Visit the Technology Tools web page and SMART Board packet sites for Interactive Internet Resources
- Explore the Floating Tool Bar
- Explore the SMART Notebook Tools and Customize the Toolbar
- Share ideas for using the SMART Board with your group

(Ask for assistance as needed.)

Check the **Technology Tools** link on Sachem's Home Page (<http://www.sachem.edu/dept/sd/index.html>) for the SMART Board handouts and links to interactive sites.

Thank you!
