

## Guidance Department Activities

School counselors are assigned to students alphabetically in grades 10-12. Counselors monitor and assist students with academic planning, serve as a liaison between a student and the school community, and provide information and guidance related to personal and academic choices. All students are encouraged to work closely with their counselor and to take advantage of the many resources available in the guidance office.

Students and parents are invited to meet with counselors to discuss academic performance, post high school planning options and other topics that relate to the student's school life.

Junior year is an exciting and busy time. The activities of junior year should include completing challenging course work, engaging in extracurricular endeavors and beginning the post high school exploration process. The counselors are available to answer questions, guide students and ensure that each student has the opportunity to meet with success.
