

Guidance Department Activities

School counselors at Sachem North are assigned to students alphabetically in grades 10-12. Counselors monitor and assist students with academic planning, serve as a liaison between students and the school community, and provide information and guidance related to personal and academic choices. All students are encouraged to work closely with their counselor and to take advantage of the many resources available in the guidance office.

Students and parents are invited to meet with counselors to discuss academic performance, post high school planning options and other topics that relate to the student's school life.

Senior year is very exciting and busy. The activities of senior year, coupled with planning for the future, make this a challenging time. The counselors are available to answer questions, guide students and ensure that each student has the opportunity to meet with success.
