

Lesson Plan

Teacher: Mrs. DelVallez

Class: Advanced Digital Video

Time: 2 Weeks

Subject: Short Film - "Passing Time"

Standards: 1, 2, 3, 4

Long Term Objectives: This lesson allows students to take what they have learned in the course, and apply the various editing techniques and special effects into their own short film. The title of the project, "Passing of Time", encourages the students to think of the ways that time can be represented. When we are in uncomfortable situations, time seems to drag at a slow pace. While having fun, time seems to fly by.

Short Term Objectives (Assignment)

Students will be able to:

- Create a storyboard depicting the timeline and ideas for their film.
- Work in groups to capture footage.
- Import footage into Final Cut Pro or imovie to be edited.
- Export movie in full quality DV format.

Method of Evaluation:

- Students will play their edited video sequences to be checked and graded.

Lesson Closure:

- Teacher have a mini critique of the finished movies.
