#WeAreSachem

Sachem Central School District

Curriculum and Instruction Office

June 2022

Dear Sachem Families:

We hope you all had a great year! As the year has come to a close, we'd like to share some updates on the district's new assessment resource, the NWEA Map Growth assessment. The NWEA is a research based assessment tool that was created to measure growth and proficiency which provides insights to help tailor instruction for our students.

After administering the assessment three times this year (fall, winter, spring), our teachers and administrators have had the opportunity to review the data and information provided in the NWEA reports. This was our first step in ensuring the effectiveness in providing valuable information to guide our instruction in both reading and math. We will now begin to share student performance with families. This year we will be posting our grades 3-5 students' NWEA Family Report in our eSchool Parent Portal. (Directions to access found below.) Next year, we will begin posting the reports for our secondary students.

Learn more about the NWEA: [Understanding NWEA MapGrowth Assessment - Parent Resources](#)

How To Access the NWEA Family Report:

- Click on the Parent Assessment Report Button (located on the top of the page)
- On the left of the screen you will see the NWEA Family Report

Our hope is that this tool will continue to support teachers, principals and district staff to more effectively assess your child's current level in math and reading and to make instructional decisions that best support your child's academic growth. For your convenience, we share below links to enrichment resources for ELA and Math should your child wish to utilize over the summer. We appreciate your cooperation and look forward to continuing to provide your children with the best learning experiences possible.
